

RESIDENT ENGINEER

John Turner Consulting, Inc. (JTC) provides geotechnical engineering, environmental consulting, resident/construction engineering, and construction materials testing services throughout New England.

JTC has immediate openings for **mid-level resident engineers in Vermont and New Hampshire**.

Desired Qualifications

- Candidates should possess a bachelor's degree in civil engineering or construction management with 3-7 years of experience in resident engineering and/or earthwork construction.
- The position(s) will require frequent on-site work/day trips and periodic overnight/week-long trips within New England. Candidates should be conscientious, detail-orientated, and self-motivated and have a professional demeanor.
- Candidates must be able to work with earthwork contractors, read and interpret construction plans and specifications, and write reports.
- Candidates with Vermont and New Hampshire State DOT construction experience are preferred. AutoCAD experience would be a plus. JTC offers competitive wages and benefits, including health insurance, vacation, 401k, and vehicle allowance.

Interested candidates should send a cover letter and resume via e-mail to Chris Kaufman, CPESC, Resident Engineering Program Manager, at chrisk@consultjtc.com.
